

# DiskClon Wiper

Secure Disk Data Disposal

## Description:

DiskClon Wiper is a hard disk wiping solution that securely deletes up to 8 disks. The wiped hard disks are reusable because they are not physically but logically damaged.

## Features:

### 1. Speedy Deleting

- Up to 6GB/min with SATAII

### 2. Multiple interface technologies support

- SATA/SAS/IDE

### 3. Disk Rack Jig

- Hard Disk drive docking station for easy plug and play

### 4. Excellent Information Security

- Completely prevent disk information exposure

### 5. Wiping Software

- Offers data disposal software to support various interfaces and to provide a convenient graphical user interface.

### 6. Work Report

- informs success or failure, wiping speed, and deleted contents
